**PACKAGING**

1 x Binoculars                      1 x Pocket                      1 x User's Manual                      1 X Printed packaging

**WARRANTY AND SERVICE****WARRANTY**

Please contact the Point of Sales where you bought the product

**SERVICE**

2-year warranty (from date of purchase) subject to proper use.

Warranty does not cover parts other than KIDYVIEW itself. Keep out of the reach of children under 3 years.

Under these circumstances, warranty doesn't apply:

- A. Artificial destruction, inappropriate use, or used for commercial purposes
- B. Warranty expired
- C. Failure to present the Warranty Card
- D. Content of the Warranty card is inconsistent with the actual object. Or blurred and unrecognizable
- E. Dirt and scratches on the product itself or accessories
- F. Repaired and modified by the user, damaged by natural disaster or external force
- G. Defects caused by misuse, negligent use or abuse of the items.
- H. Damage caused by pressure, torsion, exposure to humidity, exposure to extreme temperatures, sudden changes in temperature, corrosion, oxydation and, in general, chemical products or substances that may alter the product
- I. Product used with water, in the rain.

## PRODUCT INSTRUCTION

### INSTRUCTIONS FOR USE

#### Adjusting the field of view

The distance between the eyes varies from one person to the next. To achieve perfect alignment of the eyes and the lens openings, hold the binoculars in the normal viewing position and move the two barrels either apart or closer to each other until you have a single, clear field of view.

### FOCUSING

1. Set the right eyepiece to zero and sight on a distant subject. 2. Cover the right front lens with your hand and rotate the focusing wheel until the image in the left eyepiece appears sharp. Keep both eyes open while you make this adjustment. 3. Now cover the left front lens with your hand and rotate the right eyepiece until the image is sharp. 4. The binoculars have now been adjusted to your eyes. Note the diopter reading of the right eyepiece for future reference.

### ROLLING DOWN THE EYECUPS

If you wear glasses, roll down the eyecups; this will reduce the distance between the eyepiece and the eyes, providing an improved field of view.

### CLEANING THE BINOCULARS

Use a soft lens brush or a soft, lint-free cloth to clean the binoculars. If you use a cleaning agent, never apply the liquid to any of the glass surface, but sprinkle it on the cloth.
